ID number	B03
Name	Changing size of the video by using video template
Reporter	Juraj Anušev
Submit Date	02.04.2023
Summary	Ability to change video format by using video templates
URL	https://wide.video/app/1.2.4/
Platform	Windows
Operating System	Win 10
Browser	Chrome 111.0.5563.147
Priority	High
Description	Changing video format with any template from the list
Preconditions	New project with video is opened
Steps to reproduce	1. Click on "Project". 2. Choose option "Select Template". 3. Choose any kind of video template.
Expected Results	Video should be converted to selected format
Actual Results	Not able to change video format on current video project

Notes	PopUp window displays and shows "Project Override, Current project conf. will be overridden" means we will lose our current video configuration.
